## P R E F A C E.

THIS volume has been issued to meet the wishes of those who desire to possess, in a permanent form, letters which once yielded them pleasure and instruction. On their first publication these letters were reprinted by daily and weekly Journals throughout the kingdom, and may, without exaggeration, be affirmed to have been more widely reproduced than any communications ever despatched from fields of battle. Of a large proportion of them, it may be said, that they were welcomed by the public as affording the earliest, fullest, and most specific information at critical moments of the campaign, and if it should further be found that these same letters, hastily written in the bivouac, on the field of victory, or in some hovel on the line of retreat, have at the same time the merit of being among the most vivid and truthful pictures of war that have at any time been offered to the public, the popularity they have attained would be accounted for.

Owing to the large number of the Special Correspondents whose letters are now republished, and in order that each of them may have credit for his own labours, a conventional sign has been appropriated to each correspondent and prefixed to his letters, by which his writings may be distinguished.
