PLANT  
BIOLOGY

## CONTENTS 2/2013

<b>Surai P., Fisinin V.I.</b> Natural antioxidants in hens' embryogenesis and antistress defence in postnatal development (review) »	3
<b>Ernst L.K., Zinovieva N.A., Volkova N.A. et al.</b> Biological characteristics of pigs transgenic for human growth hormone »	40
<b>Singina G.N., Lopukhov A.V., Zinovieva N.A. et al.</b> Optimization of parameters of the oocyte enucleation and fusion with the somatic cell during production of mammalian cloned embryos »	46
<b>Kuzmina T.I., Novichkova D.A., Volkova N.A.</b> Modelling of maturation systems for porcine oocyte in vitro »	52
<b>Ernst L.K., Klenovitskii P.M., Bagirov V.A. et al.</b> Comparative analysis of genetic maps of <i>Bos taurus</i> L. and <i>Capra hircus</i> L. »	63
<b>Glazko V.I., Gladyr' E.A., Feofilov A.V. et al.</b> issr-pcr and mobile genetic elements in genomes of farm mammalian species »	71
<b>Zinovieva N.A., Kostyunina O.V., Ekonomov A.V. et al.</b> Polymorphism of genes associated with the quantitative trait loci in wild boar ( <i>Sus scrofa</i> L., 1758) in Russia »	77
