Crude Oil Analysis : Tutorial / D. Ibragimova, G. Timirbaeva; The Ministry of Science and Higher Education of the Russian Federation, Kazan National Research Technological University. – Kazan : KNRTU Press, 2022. – 84 p.

ISBN 978-5-7882-3271-3

The tutorial presents the basic content of the practical part of the course "Fundamentals of Chemical Engineering of Natural Fuels and Carbon Materials" with examples and tasks for student self-directed learning.

The tutorial is intended for students studying Bachelor programs 18.03.01 "Chemical Technology" and 21.03.01 "Petroleum Engineering." It can be also useful for students studying Bachelor programs of Petroleum and Petrochemistry Faculty.

Prepared at the Department of Chemical Technology of Petroleum and Gas Processing.
