

T 61 (8)	ИЗВЕСТИЯ ВЫСШИХ УЧЕБНЫХ ЗАВЕДЕНИЙ. Серия «ХИМИЯ И ХИМИЧЕСКАЯ ТЕХНОЛОГИЯ»	2018
V 61 (8)	IZVESTIYA VYSSHIKH UCHEBNYKH ZAVEDENII KHIMIYA KHIMICHESKAYA TEKHNLOGIYA RUSSIAN JOURNAL OF CHEMISTRY AND CHEMICAL TECHNOLOGY	2018

CONTENTS

CHEMISTRY

(inorganic, organic, analytical, physical,
colloid and high-molecular compounds)

Synthesis of composites based on silicon-modified detonation nanodiamonds	4
<i>Senyut V.T., Vityaz P.A., Val'kovich I.V., Parnitsky A.M., Rzhetsky V.A.</i>	
Influence of conditions of stretching and gas media under graphitization on crystalline structure and properties of high-modulus carbon fibers based on polyacrylonitrile	10
<i>Verbets D.B., Samoylov V.M., Buchnev L.M., Nakhodnova A.V., Bubnenkov I.A., Stepanyova N.N.</i>	
Structure of fullerite in mechanocomposites of iron-fullerite	19
<i>Larionova N.S., Nikonova R.M., Ladiyanov V.I.</i>	
Graphitization dynamics of surface of detonation nano and micro diamonds	25
<i>Shevchenko N.V., Gorbachev V.A., Chobanyan V.A., Sigalov S.K., Rizakhanov R.N., Vysotina E.A., Blank V.D., Golubev A.A.</i>	
Thermo-kinetic studies for formation of carbon matrix - precursor for reactive melt infiltration.....	31
<i>Khaskov M.A., Shestakov A.M., Sinyakov S.D., Sorokin O.Yu., Gulyaev A.I., Zelenina I.V.</i>	

CHEMICAL TECHNOLOGY

(inorganic and organic substances.
Theoretical fundamentals)

Application of mechanochemical treatment of graphite in planetary ball mills for obtaining carbon composite pellets doped with silicon.....	38
<i>Chaika V.A., Savin V.V., Savina L.A., Osadchy A.V., Zharebtsov I.S., Medvedskaya P.N.</i>	
Resource stability of activated carbon from wood in supercapacitors with organic electrolyte	43
<i>Vervikishko D.E., Kochanova S.A., Dolzhenko A.V., Lipatova I.A., Shkolnikov E.I.</i>	
Formation of physical and mechanical characteristics of carbon-carbon materials in iso-static technology for producing carbon matrix	50
<i>Kolesnikov S.A., Maximova D.S.</i>	
Carbon content influence on physico-mechanical properties of tungsten-based composites with maraging-based binder	62
<i>Zharchenkova M.I., Perfilov S.A., Blank V.D.</i>	
Development and research of reinforced carbon material with ceramic protection from oxidation in air flows	67
<i>Kolesnikov S.A., Bubnenkov I.A., Koshelev Yu.I., Melamed A.L., Protsenko A.K., Korchinski N.A.</i>	
Electronic structure and conductivity of hydrocarbon films obtained in plasma discharges of tokamak T-10	81
<i>Sokolina G.A., Arkhipov I.I., Svechnikov N.Yu., Grashin S.A.</i>	

Mechanical and tribotechnical properties of multicomponent solid lubricant composites based on ultra high molecular weight polyethylene	88
<i>Panin S.V., Alexenko V.O., Kornienko L.A., Buslovich D.G., Valentyukevich N.N.</i>	
Investigation of process of electrochemical graphite delamination.....	96
<i>Bratkov I.V., Yudina T.F., Melnikov A.G., Bratkov A.V.</i>	

ECOLOGICAL PROBLEMS OF CHEMISTRY AND CHEMICAL TECHNOLOGY

Modified carbon fiber. using them to remove metal and organic impurities from aquatic environments	103
<i>Valinurova E.R., Shaymukhametova G.F., Kozhanova A.A., Fokina E.O.</i>	
Perspective of use of sugar beet production waste - molasses in technology of rubber isolation from latex.....	109
<i>Nikulina N.S., Verezhnikov V.N., Nikulin S.S., Provotorova M.A., Pugacheva I.N.</i>
