

THE CASE AGAINST
THE LLOYD GEORGE COALITION

“Coalitions have not been popular in this country, and I will tell you why. Those which we best remember were coalitions made between individuals to get a sufficient majority to enable them to hold office, and were made for party and personal aims. A coalition of that kind has always failed, and always deserved to fail, and always will deserve to fail.”

MR. BONAR LAW, in a speech at Liverpool,
on December 19th, 1919.
