Processing Techniques for Different Furs : tutorial / G. Lutfullina, V. Sysoev, E. Valeeva; The Ministry of Education and Science of the Russian Federation, Kazan National Research Technological University. – Kazan : KNRTU Press, 2021. – 108 p.

ISBN 978-5-7882-3081-8

This tutorial focuses on different types of fur raw materials, their processing methods and technological operations using Russian and foreign chemical reagents.

The tutorial is intended for practical classes and lectures for training Bachelor's degree students majoring in Technologies of Textile Industry. The study guide can also be used for Doctoral and Master's degree students conducting their research in the field of fur and leather processing.

It has been developed at the Department of Plasma Chemistry and Nanotechnology of High Molecular Materials.
