

CONTENTS

Section 1. STUDIES OF ROCK DESTRUCTION BY EXPLOSION	5
<i>Zharikov I.F.</i> Rational charge constructions in crushing of watered rocks.....	5
<i>Tyupin V.N.</i> Prediction of parameters of granulometric structure of rock mass after blasting of fractured massifs in quarry	23
<i>Konstantinov I.A., Talgamer B.L.</i> Analysis of the concept of «regulation of the degree of crushing of rocks» by explosion	44
Section 2. STATE AND IMPROVEMENT OF EXPLOSIVES, DEVICES AND BLASTING AGENTS	73
<i>Maslov I.Yu., Gorinov S.A., Kozyrev S.A.</i> To the question of calculation of specific heat of explosion of emulsion explosives and granemites	73
<i>Bragin P.A., Bredikhin A.Yu., Konyukhov K.R., Maslov I.Yu.</i> Graphoanalytical method for determining the quantitative composition of an emulsion by phases.....	91
Section 3. TECHNOLOGY OF BLASTING IN THE MINING OF SOLID MINERALS	99
<i>Tyupin V. N., Golubnichy D. V., Bolotova Yu. N.</i> Determination of the size of the zone of slaughtering and sorting of rocks and ores during the sinking of workings and layered approaches at the Yagoka mine	99
<i>Selin I.Yu.</i> Impact on the array during the explosion of the fan charge.....	121

Section 4. USE OF COMBUSTION AND EXPLOSION ACTIONS IN INDUSTRY	138
<i>Pavlova Ya.O., Mokeev A.A., Grachev E.S., Skupko S.A.</i> Study of combustion characteristics of energy-saturated material for the landing module of the explosive packer.....	138
<i>Kalyakin S.A., Labinskiy K.N., Kупenko I.V., Shkumatov A.N., Gritsaenko A.Y., Barsuk N.D., Pirogov S.O.</i> Electromagnetic radiation during explosive charge explosions and complex hybrid mixtures of methane and coal dust	148
Section 5. ECOLOGY AND SAFETY DURING BLASTING OPERATIONS	168
<i>Sheinkman L.E., Ivlieva M.S.</i> Justification of effective technological solutions for recultivation of carbonate rock quarries	168
Section 6. INFORMATION.....	184
<i>Bolotova Yu.N.</i> The results of the XXVI international scientific and practical conference on mining and blasting conducted by ANO "NOIV"	184
