

CONTENTS

REVIEWS, CHALLENGES

<i>Zhuchaeв K.V., Kochneva M.L., Borisenko E.A.</i> Welfare of productive animals (review) . . .	1025
<i>Konovalova E.N., Romanenkova O.S., Gladyr E.A. et al.</i> Formation of the taste qualities of beef: genetic and physiological mechanisms and the factors of influence (review) . .	1039
<i>Ulimbashev M.B., Konik N.V., Krasnova O.A. et al.</i> Use and preservation of local dairy cattle breeds (review)	1055
<i>Smekalova A.A., Lebedeva I.Yu.</i> The role of somatotrophic hormone in the endocrine and local control of reproductive function in the domestic hen (<i>Gallus domesticus</i> L.) (review)	1076

GENETICS, GENOMICS

<i>Chaickaya K.D., Lemyakin A.D., Tyazhchenko A.N. et al.</i> Association of the leptin gene allelic variants with dairy productivity parameters in cows of Kostroma, Yaroslavl and black-and-white breeds of the Kostroma region	1091
<i>Kalinkova L.V., Kuptsova N.A.</i> Genetic characterization of the Russian population of German classic ponies by STR loci and genes affecting coat colour	1108
<i>Kosovsky G.Yu., Skobel O.I., Glazko T.T.</i> Potential sources of negative effects of gene editing in animals	1118

INNOVATIVE TECHNOLOGIES

<i>Osipov V.Yu., Kuleshov S.V., Zaytseva A.A. et al.</i> Analysis of the physiological state dynamics in dairy cows based on video monitoring	1131
---	------

PHYSIOLOGY OF ADAPTATIONS

<i>Selionova M.I., Trukhachev V.I., Aybazov A.-M.M. et al.</i> Metabolic and antioxidant profile of Nubian and Karachay goats (<i>Capra hircus</i> L.)	1145
<i>Avdeev N.V.</i> About the dose-dependent effect of exogenous 20-hydroxyecdysone on the hypopharyngeal gland and behavior of adult bees <i>Apis mellifera</i> L.	1160

REPRODUCTION

<i>Lebedeva I.Yu., Mityashova O.S., Aleynikova O.V. et al.</i> The levels of pituitary-thyroid axis hormones and their relationship with ovarian hormones during the ovulatory cycle of young laying hens (<i>Gallus domesticus</i> L.)	1169
<i>Silyukova Yu.L., Fedorova E.S., Stanishevskaya O.I.</i> Assessment of the cytological integrity and functional usefulness of thawed rooster (<i>Gallus gallus domesticus</i> L.) spermatozoa under the influence of antioxidant components of cryoprotective media — inositol and zinc oxide nanoparticles (ZnO NP)	1179

BIOMATERIALS

<i>Vostroilova G.A., Shabunin S.V., Shabanov D.I. et al.</i> Study of antimutagenic effect of hydrophilic cryofraction of bovine spleen	1192
---	------

VETERINARY MICROBIOLOGY

<i>Maslennikova I.L., Mikhailovskaya V.S., Afanas'evskaya E.V. et al.</i> The species spectrum of milk microbiota in healthy cows and animals with mastitis has differences . . .	1204
<i>Sokolova O.V., Zubareva V.D., Bezborodova N.A. et al.</i> Antibiotic resistance, pathogenicity and virulence genes of <i>Staphylococcus aureus</i> and <i>Escherichia coli</i> , isolated from the reproductive tract and mammary gland of cattle (<i>Bos taurus</i>) during inflammation .	1221
<i>Abed Alhussen M., Krotova A.O., Fedorova O.E. et al.</i> Development of Real-Time PCR test systems for detection of <i>Mycoplasma bovis</i> and <i>M. bovis genitalium</i> DNA . . .	1237
