**Impact of the geopolitical changes on the EU foreign trade
I-56 relations with selected territories: Implications for the Slovak
economy** / *E. Kašťáková, K. Drieniková, Ľ. Zubaľová*; eds *E. Kašťáková, S. Sutyurin*. — SPb.: Saint Petersburg University Press, 2019. — 248 p.
ISBN 978-5-288-05988-9

The current geopolitical changes taking place in the world economy exert great influence on the EU (and Slovakia's) foreign trade relations. This monograph examines the impact of geopolitical changes on the EU foreign trade relations with the countries of the Western Balkans, Ukraine, Russia and Kazakhstan, assesses the impact of the mutual EU and Russia sanctions on the EU foreign trade with the countries selected, and points out the potential for development of Slovakia's foreign trade relations with these countries. The uniqueness of this monograph lies in the primacy and complexity of the EU foreign trade relations with the countries under consideration and the impact of the mutual EU and Russia sanctions on the EU and Slovakia's foreign trade with Russia. The outcomes of the conducted research can be of great use to business and government institutions, as well as to European institutions and organizations, teachers, scientists or R&D agencies and others.

The monograph was prepared within the project of the Ministry of Education, Family and Sports of the Slovak Republic VEGA 1/0546/17 — Impact of the geopolitical changes on enforcement of the EU strategic foreign trade interests (with implications for the Slovak economy).
