Ä

the first time in the history of the world, the people of the United States have
gathered together on the occasion of their independence, to consider the state
of the Union.

It is fitting, therefore, that they should have been invited to meet in the
city which was the birthplace of their country, and where their fathers
lived and died.

The meeting has been well-arranged, and the speakers have been selected
with care. The address of the President will be listened to with great interest,
and the resolutions will be adopted with unanimous consent.

The day is a happy one for the country, and the occasion is a fitting one
for the people to meet and to express their feelings and opinions.

The meeting has been well-arranged, and the speakers have been selected
with care. The address of the President will be listened to with great interest,
and the resolutions will be adopted with unanimous consent.
