JOHN WESLEY POWELL

THE PIONEER IN SCIENTIFIC CONQUEST OF THE ARID  
LANDS OF THE NATIONAL DOMAIN

There is no one question now before the people of the United States of greater importance than the conservation of the water supply and the reclamation of the arid lands of the West, and their settlement by men who will actually build homes and create communities.

ETHAN ALLEN HITCHCOCK.

Throughout our history the success of the home-maker has been but another name for the upbuilding of the nation.

THEODORE ROOSEVELT.

Stability of national character goes with foothold on the soil.

DAVID STARR JORDAN.
