

CONTENTS

<i>Glotov A.G., Glotova T.I.</i> Atypical bovine pestiviruses (review)	399
<i>Volykhina V.E.</i> Deformed wing virus in <i>Apis mellifera</i> L.: prevalence, morphology, and pathogenicity (review)	409
<i>Malenko G.P., Komissarov A.V., Stepanov O.I. et al.</i> Perspective of zona-free method use in farm animal cloning (review)	420
<i>Fisinin V.I., Kavtarashvili A.Sh.</i> Heat stress in poultry. II. Methods and techniques for prevention and alleviation (review)	431
<i>Zabudskii Yu.I.</i> Reproductive function in hybrid poultry. II. An impact of breeding for traits other than productivity (review)	444
<i>Volkova N.A., Fomin I.K., Tomgorova E.K. et al.</i> The study of factors affected the gene transfer efficiency in chicken embryonic cells by application of lentiviral vectors	458
<i>Mikhailenko I.M.</i> New probabilistic statistical and dynamic models to control life cycle in lacting cows	467
<i>Lebedeva L.F., Atroshchenko M.M., Burmistrova S.A.</i> Main factors affecting mare insemination with cryopreserved domestic and foreign sperm	476
<i>Sidel'nikova V.I., Chernitskiy A.E., Zolotarev A.I. et al.</i> Individual reactivity of granulocytic system of newborn calves and its role in pathogenesis of inflammatory diseases of respiratory and gastrointestinal tracts	486
<i>Shevchenko T.S., Konopleva I.V.</i> Effects of external γ -radiation on adenylate cyclase activity in sheep blood cells	495
<i>Burkin A.A., Kononenko G.P.</i> Mycotoxin contamination of meadow grasses in European Russia	503
<i>Artem'eva O.A., Pereselkova D.A., Fomichev Yu.P.</i> Dihydroquercetin, the bioactive substance, to be used against pathogenic microorganisms as an alternative to antibiotics	513
