

CONTENTS

GENOMICS, GENE POOL, REPRODUCTIVE

BIOTECHNOLOGIES: on the 95th anniversary
of the Ernst Federal Research Center for Animal Husbandry

Koshkina O.A., Deniskova T.E., Romanov M.N. et al. Genomic studies in domestic goats (*Capra hircus* L.): current advances and prospects (review) 587

Abdelmanova A.S., Kharzinoва V.R., Fornara M.S. et al. Estimation of genetic relationships of black-and-white cattle breeds with ancestral populations based of genome-wide SNP-genotyping of modern and museum samples 605

Deniskova T.E., Dotsev A.V., Selionova M.I. et al. Search for signatures of selection in the genomes of domestic goats (*Capra hircus* L.) raised in Russia using detection of ROH islands 620

Sermyagin A.A., Deniskova T.E., Gusev I.V. et al. Identification of SNPs associated with growth and development traits of goats (*Capra hircus* Linnaeus, 1758) from the resource population in age dynamics 633

Volkova N.A., Kotova T.O., Vetokh A.N. et al. Genome-wide association study of testes development indicators in roosters (*Gallus gallus* L.) 649

Dzhagaev A.Yu., Volkova N.A., Zinovieva N.A. Search for genes associated with the age at first egg in laying hens (*Gallus gallus* L.) 658

Kharzinoва V.R., Volkova V.V., Nikipelov V.I. et al. Characterization of the genetic structure in aquaculture and wild sterlet (*Acipenser ruthenus* Linnaeus, 1758) populations based on microsatellite analysis 666

Pisarenko N.B., Bardukov N.V., Nikipelov V.I. et al. Analysis of SNP (400 C > A) in the *IGF1* gene for associations with size and weight indicators of sterlet (*Acipenser ruthenus*, Linnaeus, 1758) 680

Singina G.N., Lopukhov A.V., Shedova E.N. et al. The influence of oocyte and donor cell preparation conditions on the efficiency of somatic cloning in sheep (*Ovis aries* L.) 692

Chinarov R.Yu., Bogolyubova N.V., Singina G.N. et al. Association of blood serum biochemical parameters with the follicular pattern of the ovaries and the opu efficiency in donor heifers (*Bos taurus* L.) of the istoben breed 704

REVIEWS, CHALLENGES

Maksimova M.A., Plemyashov K.V., Korochkina E.A. Boar sperm: features and storage methods (review) 721

WHOLE GENOME ANALYSIS

Selionova M.I., Trukhachev V.I., Zinovieva N.A. et al. Search for genome-wide associations of single nucleotide polymorphisms with milk quality traits in sheep (*Ovis aries* L.) of lacon breed 735

REPRODUCTION

Lebedeva I.Yu., Mityashova O.S., Smekalova A.A. et al. The functional activity of cells from preovulatory follicles of hens (*Gallus domesticus* L.) under influence of triiodothyronine in vitro 749

BIOACTIVE SUBSTANCES

Bogolyubova N.V., Nekrasov R.V., Bardukov N.V. et al. On the biological effects of melanin in feeding broiler cross Smena 9 chickens (*Gallus gallus* L.) 759

Chernitskiy A.E., Oberiyukhtin D.A., Shanina E.P. et al. Metabolic effects of purple potato (*Solanum tuberosum* L.) dietary juice on rats (a pilot study) 773

VETERINARY VIROLOGY, MICROBIOLOGY, IMMUNOLOGY

Vlasov M.E., Kudrjashov D.A., Kolbasova O.L. et al. Immunobiological evaluation of the candidate vaccine strain MK-200 of the african swine fever virus 787

Laishevtev A.I., Zulkarneev E.R., Pimenov N.V. et al. Biological properties of the *Salmonella phage* BF-1356 strain and its effectiveness in phage therapy of chicken pullo-rosis 799

Donchenko N.A., Kozlova Yu.N., Koptev V.Yu. et al. Immunogenicity and invasiveness of the genus *Bacillus* microorganisms with oral administration 814
