Foreword	465
Effect of Coal Particle Size Distribution on Laser Ignition Characteristics B. P. ADUEV, D. R. NURMUKHAMETOV, N. V. NELYUBINA, I. YU. LISKOV, V. D. VOLKOV, Z. R. ISMAGILOV	467
Composite Materials Based on Cryogels L. K. ALTUNINA, V. N. MANZHAI, M. S. FUF AEVA	475
Physicochemical Studies of the Humic, Hymatomelanic and Fulvic Acids of Brown Coals K. S. VOTOLIN, S. I. ZHEREBTSOV, K. M. SHPAKODRAEV, N. V. MALYSHENKO, Z. R. ISMAGILOV.	480
Integrated Investigation of the Structure of Industrial Green Coke N. S. ZAKHAROV, S. A. SOZINOV, A. N. POPOVA, Z. R. ISMAGILOV	490
Nanostructured Composites Based on Matrices Obtained from Coal Raw Materials for Development of Electrode Materials for Supercapacitors YU. A. ZAKHAROV, G. YU. SIMENYUK, T. O. SERGINA, T. A. LARICHEV, V. M. PUGACHEV, V. G. DODONOV, I. YU. ZYKOV.	497
Particle Morphology and Phase Compositions of CoPt and CoPd Nanostructured Systems in the Regions Rich in Precious Metals YU. A. ZAKHAROV, I. N. TIKHONOVA, V. M. PUGACHEV, A. N. POPOVA, N. S. ZAKHAROV, V. G. DODONOV, D. M. RUSSAKOV	511
Catalytic Hydrogenation of CO in the Presence of Lignin-Based Catalysts Obtained by Hydrothermal Synthesis M. I. IVANTSOV, S. A. SVIDERSKII, K. O. KRYSA NOVA, A. E. SOTNIKOVA, M. V. KULIKOVA	522
The Influence of the Hydrothermal Lignin Carbonisation Temperature on the Properties of Biochar as a Potential Solid Fuel K. O. KRYSA NOVA, M. I. IVANTSOV, A. E. SOTNIKOVA, A. YU. KRYLOVA, M. V. KULIKOVA	534
Ni-, Co- and Ni–Co-Containing Catalysts Based on Biochar for Steam Reforming of Isobutanol M. V. KULIKOVA, A. K. OSIPOV, S. A. PONOMAREV, A. S. LOKTEV, A. G. DEDOV	544
Development of Supported Nickel-Cerium Catalysts for Resource-Saving Conversion of Methane into Hydrogen-Containing Gas A. P. NIKITIN, S. A. SOZINOV, E. V. MATUS, Z. R. ISMAGILOV.	552
Investigation of the Combustion of Biochar Obtained by Hydrothermal Carbonisation and Torrefaction of Sawdust YA. D. PUDOVA, K. O. KRYSA NOVA	561
Removal of Cadmium Ions from Aqueous Solutions Using Burnt Rock O. V. SALISHCHEVA, YU. V. TARASOVA, N. E. MOLDAGULOVA, T. A. LARICHEV	567
Physicochemical and Biospecific Properties of a Porous Carbon Sorbent Modified with Sulphosalicylic Acid A. V. SEDANOVA, L. G. P'YANOVA, M. S. DELYAGINA, N. V. KORNIE NKO, N. N. LEONT'EVA	573
Preparation and Properties of Biodegradable Cryogels Based on Polyvinyl Alcohol and Potato Starch for Use in Soil Erosion Control M. S. FUF AEVA, YE. KIM, V. S. OVSYANNIKOVA, V. N. MANZHAI, L. K. ALTUNINA	584
Selective Hydrogenation of CO in the Presence of Nickel-Containing Carbon Catalysts I. S. CHEMAKINA, M. I. IVANTSOV, N. YU. TRETYAKOV, A. V. ELYSHEV, M. V. KULIKOVA	590
Patent Analytics Based Identification of Potential Coal Processing Production Chains M. K. KOROLEV, S. M. NIKITENKO, E. V. GOOSEN	598
Coals of Kuzbass as the Main Raw Material to Recover the Production of Active Coal V. M. MUKHIN	605
