THE extent of the OFFICIAL DESCRIPTIVE AND ILLUSTRATED CATALOGUE OF THE GREAT EXHIBITION has been, from the first, a subject of great uncertainty. It was impossible to determine the limits of a work which, from its very nature, was open to constant alterations and additions. These have accordingly been so numerous as to carry it to a greater number of pages than was at first contemplated by the Contractors for its publication, and it has become necessary to divide it into five Parts, or three Volumes, two Volumes only having been at first intended. It may be hoped that this increase in its size, which has been unavoidably attended also with an increase in its cost, will add to the permanent value and utility of a work, which has been prepared from the first with a view to its being adopted as a library book for all persons interested in the Industrial Arts.
